September 2004 Waterfalls

This winter after years of near drought conditions we have been blessed with heavy rainfall leading to all our rivers, streams & water courses running vigorously.

In our surrounding lush foothills, only 20 minutes drive from North Adelaide, we have some wonderful protected pristine bushland with marvellous paths and most importantly,

Waterfalls. A number of which we have been visiting as a family each Sunday.

In our experience this woodland country with its swirling clouds with glimpses through the blue green towering Gum trees of Adelaide city is sensational.

During our walks we have been delighted with our encounters with blue tipped Willy Wag Tails, wild Koalas, Australian Blue Bells, River She Oaks and scenic vista in our beautiful Mount Lofty Ranges

Waterfall Gully - First Creek

This park and waterfall complex is part of Cleland Conservationl Park and is best accessed by car.
